- Wireless Technology
- PC Maintenance/Troubleshooting
- Operating Systems Class Room
- UNIX/Graphics (Sun) Class Room
- Student use lab-open to all CSIS Department Majors

Faculty:

- Broad-based Professional Industry Experience
- Security certified
- CCNA and CCAI Certified
- Security Certified
- Student Oriented

ABOUT THE DEPARTMENT

The CSIS office is located in 339 Meshel Hall. Most of the classrooms and labs in which our classes are taught are located on the third and first floors of Meshel Hall.

Some of our labs are general-purpose facilities that house computers using Windows and standard application packages, including Microsoft Word, Internet Explorer, and Visual Studio.

Other labs include more specialized software and hardware, including multimedia packages and networking equipment.

We offer a safe studying environment. Our labs are restricted to students of and students taking departmental classes.

CAREER OPPORTUNITIES

- Chief Information Officer
- Chief Technology Officer
- Database Administrator
- Database Specialist
- Information Technology Administrator
- Security Administrator
- Security Specialist
- Network Administrator
- Network Specialist
- Computer Forensic Specialist
- System Analyst
- Web Administration
